SEA-DOO

THE 2022 SEA-DOO LINEUP IS HERE

Rise before the sun, the water is calling...
Calling on you to make waves.
Life can wait, even if just for a second or two.
Silence everything else and hear the sound
of your freedom.
Seek thrills, build skills, or just be still.
Today's adventure is yours to build.
Just hit the water with all your might.
And leave a wake worth remembering.
Make your own flow, only then can you go with it.
It's time to grab life by the handlebars.
Steer with your heart and your gut will follow.
Lead the way and never look back.
The best days in life are on the water.
And doing it all over again tomorrow,
that's even better.

LIVE THE
SEA·DOO
LIFE

New year, new adventures, great vibes
and as always, Sea-Doo at its best.

Welcome to the inaugural issue
of "Splash by Sea-Doo" where we're
celebrating the community, riders and
stories that showcase what livin' the
#SeaDooLife is all about.

We check out fresh new things
to wear and show you great ways to
upgrade your ride. 2022 is here. Let's
jump in and make a splash.

Products in this catalog will be available for purchase at your authorized Sea-Doo dealer and online at store.sea-doo.com starting November 2021. For advertising purposes, some scenes depicted in this catalog include professional riders and operators executing maneuvers under ideal and/or controlled conditions. Do not attempt any of these or any other risky maneuvers if they're beyond your level of riding ability, as well as your understanding and respect for the performance of your Sea-Doo watercraft. RIDE SMART FROM THE START. Always ride responsibly and safely. Follow all instructional and safety materials. BRP recommends a minimum operator age of 16 years old for riding a watercraft. Always wear appropriate protective clothing for your type of boating use, including a Coast Guard approved life jacket. Always remember that riding and alcohol/drugs don't mix. Operate your watercraft keeping a safe distance between yourself and others. Always observe applicable local laws and regulations. Because of its ongoing commitment to product quality and innovation, Bombardier Recreational Products Inc. (BRP) reserves the right, at any time, to discontinue or change specifications, prices, designs, features, models or equipment without incurring any obligations. Some models depicted herein may include optional equipment. Depending on location, products are distributed by BRP US Inc., Bombardier Recreational Products Inc., BRP European Distribution SA, BRP Australia Pty Ltd., BRP Finland Oy., BRP Japan Ltd., BRP Comm & Trade (Shanghai) Co Ltd. or Bombardier Recreational Products Motores da Amazonia Ltda.® are registered trademarks and TM and the BRP logo are trademarks of Bombardier Recreational Products Inc. or its affiliates.* is a trademark of Bombardier Inc. used under license. SEA-DOO

Welcome to our World

Over the last 18 months, the Sea-Doo community has grown. We're bringing people from all walks of life to the water. Fishing, towing, adventure... now more than ever there's a Sea-Doo for you.

INNOVATIVE TECHNOLOGY

The Sea-Doo Advantage

ERGOLOCK SYSTEMS

The narrow, race-inspired seat and deep knee pockets let you lock in and use your legs for better control, reducing upper body fatigue and making you feel like one with the machine.

INTELLIGENT BRAKE AND REVERSE (iBR)

In partnership with Surf Life Saving Australia, recognised by the U.S. Coast Guard for improving boat safety since 2009 and now in its third generation, the industry's first Sea-Doo exclusive iBR system! This allows you to stop up to 160 feet (48m)* sooner than watercrafts not using a brake.

OVER A DECADE OF SERVICE
OFFICIAL POWERCRAFT SUPPLIER OF
SURF LIFE SAVING AUSTRALIA

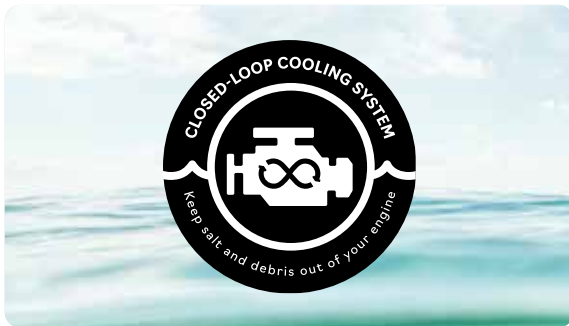

* Based on BRP internal testing.

ROTAX MARINE ENGINES

With unmatched high performance, superior fuel efficiency and proven reliability, Rotax marine engines continue to set the standard in the industry. Now every Sea-Doo engine features Advanced Combustion Efficiency (ACE) technology which optimizes the engine to deliver peak performance and impressive fuel efficiency.

CLOSED-LOOP COOLING SYSTEM

Another Sea-Doo exclusive, the Closed-Loop Cooling System (CLCS) uses coolant to keep the engine running at ideal temperatures. Unlike competitors, this technology prevents corrosive salt water and damaging debris from entering the engine, for increased reliability, longevity and peace of mind. Offered as an expensive upgrade on traditional marine inboard engines, CLCS comes standard on all Sea-Doo models.

POLYTEC

This innovative and robust material reduces the weight of the watercraft to deliver peak performance and efficiency while also making it easy to tow with small cars. Plus, the colour-in molding is more scratch-resistant than fiberglass.

INTELLIGENT THROTTLE CONTROL (iTC)

- **Eco mode:** Sea-Doo exclusive Eco mode produces up to 46% improved fuel efficiency.
- **Speed regulator mode:** Set your speed for cruising, tow sports, navigating no-wake zones and more.
- **Sport mode:** The most responsive mode for top performance from your watercraft.
- **Ski mode:** The perfect pull, every time. Five different acceleration profiles make it easy for the driver to deliver a smooth launch and consistent pace, so boarders can focus on shredding.

INTELLIGENT DEBRIS FREE PUMP SYSTEM (iDF)

Ingenious new iDF system allows riders to clear clogged intakes from their seat with a push of a button to maximise valuable riding time.

7.8" FULL COLOUR LCD DISPLAY

Experience stunning colours and view crystal clear vehicle data whilst pairing with compatible phone apps using BRP Connect for maps, weather and more on your dash.

THE NEW FISH PRO

Full-on Fishing

Get on board with the new 2022 FISH PRO™ lineup, with models for sport fishing pros or casual weekend warriors. What started as one original model is now a family of three, with next-level design and exclusive new features only a true sport fisher would think of. So hit the water, pick your target, cast your line and reel in the big one.

FISH PRO Sport

NEW FISH PRO Trophy

NEW FISH PRO Scout

NEW

FISH PRO™ TROPHY 170

The most advanced sport fishing personal watercraft on the water.

KEY FEATURES

- iDF - Intelligent Debris Free Pump System
- Advanced battery system
- LinQ® fishing cooler (13.5 US gal/51 L)
- Quick Connect-Live Well and Washdown System
- Garmin® 7" touchscreen GPS & Fish Finder
 - Includes free regional map token
- **NEW Tech Package:** BRP Audio – premium system & full-color 7.8" wide display

FISH PRO

Load Up and Go

Your perfect day of fishing starts here. With our many versatile accessories and multiple modulation possibilities, you can fish with convenience and keep your eyes on the prize.

1

LinQ® FISHING COOLER AND —NEW— QUICK-CONNECT LIVEWELL

A rugged 51L cooler that's built to keep your ice and catch cold all day can also transform into a livewell in seconds.

2

FISHING BENCH SEAT

Eases movement from the driver position to the passenger area for fishing or access to the cooler.

3

—NEW— GARMIN® 7" TOUCHSCREEN FISHFINDER AND GPS

Top-of-the-line navigation, charting and fish-finding system using an in-hull transducer and mid-CHIRP sonar.

4

ROD HOLDERS

5 rod holders allow improved flexibility for trolling and storage.

5

EXTENDED REAR PLATFORM

Provides more space to move about or for cargo. It also increases stability at rest and when carrying a full cooler.

6

LinQ® ATTACHMENT POINTS

A second set of LinQ attachment points allows for a fuel caddy, watertight bag or other LinQ accessories.

1

4

8

5

7

ANGLED GUNWALE FOOTREST

Keeping it Reel

with
ANDREW HILL

Sea-Doo Ambassador

“Planning adventures is the coolest part. There are no limitations. You can go to remote places, you can launch off sandy beaches – it just opens up new worlds.”

ANDREW HILL

ANDREW HILL TURNED HIS PASSION FOR FISHING AND WATERCRAFT INTO HIS BUSINESS, AND ALONG THE WAY HELPED BRING THE SEA-DOO FISH PRO TO LIFE.

Andrew Hill embodies everything about the Sea-Doo FISH PRO. Instrumental in the development of the model range, Andrew lives and breathes PWC fishing adventures. Having tinkered with do-it-yourself solutions to equip his old PWC for fishing, Andrew worked with the Sea-Doo team to help create the FISH PRO. Now fishermen (and women!) everywhere can take an adrenaline ride to their favourite fishing spot and cast a line easier than ever before.

“With the FISH PRO, Sea-Doo have made it easy for anyone to buy this craft and do what I do out-of-the-box. Before then, people would watch my videos and DIY fishing rigs on their watercraft. Unlike a boat, it's easier to get on the water quickly and head to your favourite fishing spot, and catching fish is a great reason to get out on your craft more often”, said Andrew. He added, “Planning adventures is the coolest part. There are no limitations. You can go to remote places, you can launch off sandy beaches – it just opens up new worlds. And when you add a friend it goes to a whole new level.” And it's not just the fishing. With the FISH PRO, half the fun is getting out to your fishing spot on the ski. “Going out at first light and seeing the sun rise is so special. Riding along at speed, accompanied by dolphins and orcas, is just magic,” Andrew said. And if the fish aren't biting, quickly remove the fishing kit and the versatile FISH PRO can mix it with the best PWCs for a fun day of riding in any conditions.

One of the most popular events Andrew runs is the annual Monster Snapper Hunt which attracts over 80 anglers aged from 16 to 70 years. Helping others master fishing on PWC is one of Andrew's great passions. “For me, I get the most enjoyment watching other people catch their first fish, or their first fish on the FISH PRO,” said Andrew, who not long ago landed his largest ever Snapper – a specimen weighing in at 30+ pounds, a milestone that had eluded him for many years.

His dream fishing trip? “We do an annual trip to Great Barrier Island off Auckland. It's the purest island in the region, and is home to many big fish species. We put the skis on a barge to get to the island, for five days of fishing and camping – it's an epic adventure!”

So what's on Andrew's bucket list? “Definitely New Zealand's South Island Sounds. This is pristine wilderness with spectacular scenery that would make for a memorable fishing adventure.”

For Andrew, the FISH PRO lifestyle runs in the family. His kids regularly join him on the water for fishing and fun. And he even named his new puppy Rotax after the Sea-Doo powertrain.

TOURING

First Class Experience on the Water

Make relaxation the only item on your agenda. With the GTX, a day of discovery out on the water couldn't be more indulgent. The GTX family is built with convenience and storage capacity that let you pack any adventure you choose into any ride.

TOW SPORTS

Ride a Wave of Thrills

There's an undertow of excitement whenever the WAKE is around. It's also the heavyweight champion when it comes to pulling waterskiing and wakeboarding fanatics. Grab onto the Sea-Doo life!

A photograph of a Sea-Doo Wake Pro 230 jet ski in motion on a body of water. Two people are riding the jet ski; the driver is a woman wearing sunglasses and a black life vest, and the passenger is a man wearing a blue and black life vest. The jet ski is light blue and black, with orange accents. It is creating a large splash of white water. In the background, there is a line of green trees and a tall, multi-story building under a clear blue sky.

WAKE PRO 230

WAKE™ PRO 230

FEATURE HIGHLIGHTS

NEW Full-Color 7.8" Wide Display

Full-color display with incredible visibility and a new level of functionality. Bluetooth and smartphone app integration provides music, weather, navigation and more.

BRP Audio – Premium System

An industry-first manufacturer-installed, truly waterproof, Bluetooth® audio system.

Wakeboard Rack

Provides convenient storage and transport of a wakeboard.

ROTAX® 1630 ACE™ – 230 Engine

This powerful engine comes standard with a supercharger and external intercooler. It is optimized to run on regular fuel, which lowers fuel costs.

ST3 Hull™

An innovative hull that sets the benchmark for rough water handling, stability, and offshore performance.

LinQ® Retractable Ski Pylon

A quick-install retractable ski pylon that stows away when not in use. Features spotter handgrips and rope storage.

How to Tow

with
CHRIS FARRO

LOOKING FOR CHRIS FARRO?
YOU'LL PROBABLY FIND HIM
TOWING INTO MASSIVE HAWAII
SWELLS, WAKESKATING, OR
CATCHING A DOWNWINDER
WITH A SEA-DOO WAITING
TO PICK HIM UP.

No matter the adventure, he's always got safety in mind. To get some tips from the pro, we called up Chris to hear how he stays safe on the water and to find out about a few of his favorite tools when he's out on his Sea-Doo.

1

GET EDUCATED

Things happen fast on the water. If you're getting into towing, preparation and education are your best friends!

2

LINQ RETRACTABLE SKI PYLON (295100909)

A must for towing with friends. Keep this in the extended position when towing, and always inspect it before and after your session to ensure it's in tip-top shape!

3

WAKEBOARD RACK (295100838)

Keep your boards secure no matter the conditions out on the water. I keep one on either side in case conditions change and I want to switch boards.

4

TOW ROPE

Get a nice, fat tow rope, and let the good times roll.

5

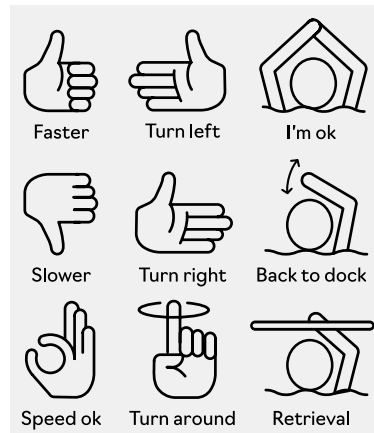

SAFETY

Life jacket, always! You're having the most fun you can possibly have, so make sure to stay honed in on safety and keep the vibe high out on the water.

6

HAND SIGNALS

Before you head out for a day of towing, make sure to refresh yourself on communication hand signals. Practice them on shore before you head out with the spotter you'll be using on the water—a must for any time you go towing!

7

SAFETY SLED

If you're towing into waves, equip your Sea-Doo with a safety sled. For big wave surfers like myself, this is an absolute must! It can serve as an added space for gear, plus it can be used in an emergency if things go sideways.

WAKE™ PRO

Pulls Like a Pro

When it's time for towin', the Wake Pro gets goin'. A champion of wakeboarding and wakeskating, this Sea-Doo is ready for duty and always pulls its weight.

EDITORIAL

Tanker Boys

with
NICK TAYLOR

Sea-Doo Ambassador

"Growing up, I'm sure at some point I made a mental note to go try tanker surfing."

NICK TAYLOR

HARNESSING THE POWER OF TANKERS AND DODGING SHARKS, NICK TAYLOR AND CO. CATCH A WAVE IN AN UNFAMILIAR LOCALE.

When it comes to riding a wave anywhere on Planet Earth, being in the right place at the right time can take years of reading forecasts, understanding seasonal trends and generally, a whole lot of luck. When it comes to the niche sport of tanker surfing, things get just a little more complicated. But with a little bit of ingenuity, it can deliver the ride of a lifetime—and that's what professional surfer Nick Taylor brings to the table.

A little known corner of the wave-riding world, tanker surfing, or riding the waves generated by the large tankers that deliver goods to the port in Galveston, Texas, has been going on since the early 1970s. Pioneered by a few hearty locals, the sport has slowly picked up in popularity in the past decade.

One way to ride these waves? The up-and-coming sport of hydrofoiling. Pioneered in Hawaii by big-wave surfers, the sport has gained immense popularity over the past decade. By utilizing technology similar to how an airplane wing flies, the sport involves riding a wakeboard

or surfboard with a wing mounted to the bottom, delivering a smooth ride for the rider, who is elevated off the water's surface.

That's where Nick Taylor comes in. A Florida-born waterman who originally made a name for himself as a professional wakeskater, Nick hopped on the bandwagon when he heard of the new sport.

Of the many advantages of a hydrofoil, one of its most common uses is to ride waves that are not favourable for traditional surfing—and that's where the collision of the world of tanker surfing and hydrofoiling occurs—right underneath Nick Taylor's feet.

"Growing up, I'm sure at some point I made a mental note to go try tanker surfing," Nick said.

"But as a surf-starved grom, it would've been difficult to peel my focus away from the world-famous traditional surf spots like Pipeline, Uluwatu and Kirra."

But when this new sport came into the fold, his priorities were rearranged.

"It had never looked so appealing as it now did, viewed through the expanded filter of hydrofoil possibilities. While too mellow on the face for aggressive maneuvers on a shortboard, the tanker wakes are long, perfectly shaped power sources for riding a foil," Nick Taylor said.

So Nick gathered a crew, with wakesport legends Parks Bonifay and Brian Grubb, along with another wake-world mainstay Guenther Oka, and headed to the small town of Galveston, Texas, on the Gulf Coast. While plenty have tackled the tanker-surfing scene, this crew was unique, in that they tackled the waves on hydrofoils. And because the tanker swells don't generate enough power for the waves to be paddled into, the crew used their Sea-Doo Wake Pro to tow each other. This way, they could get up to speed, at which point they could let

go of the tow rope and ride for miles on end—literally.

"There were times when my legs gave up a couple of miles before the wave was done trimming across the Galveston sandbars," Nick said.

With the help of local surfer and tanker wave pioneer Capt. Joe, a local tanker captain who can read a tanker swell forecast with the best of them, the crew had the session of a lifetime—and managed to stay safe while doing so.

"We're operating in close proximity to some of the largest machines humanity has ever built while moving at crazy speeds, and keeping in mind the massive sharks that follow closely behind every tanker/cargo ship that comes in from the open ocean," Nick remarked.

Even with some dangers, it's hard to not enjoy yourself when there are no crowds, plenty of waves, and a new experience that's hardly comparable to anything else in the world of tow-surfing.

"There's great joy to be found in trying something new and stepping outside of your normal bounds—even if you have to go to Galveston, Texas to do it."

These are professionals with the knowledge, training and experience to be able to participate in this activity safely. Any time you go on the water, make sure your knowledge and understanding of local conditions and safety protocols are always up to date.

A Career at Top Speed

with
KYLIE ELLMERS

Sea-Doo Ambassador

"I love competing, the challenge of pushing myself against the best in the world, and conquering the conditions on the day."

KYLIE ELLMERS

IF KYLIE ELLMERS ISN'T PILOTING HER CRAFT TO ANOTHER TITLE WIN, YOU'LL LIKELY FIND HER HARD AT WORK PREPARING RACING CRAFT FOR HERSELF AND OTHERS.

Kylie Ellmers grew up in a small town in New Zealand where the local sports were either surfing or speedway. She spent many hours with her family at the race track, then took her love of high-performance racing to the water and became a champion Sea-Doo racer.

Over a 25-year racing career, Kylie has won every title worth having, in every craft class, including multiple world titles. She even mixes it with the men, winning numerous international Open titles and forging a path for other women in the sport.

Competing at the top level takes a lot of discipline and practice, and a keen awareness of weather and wave conditions. "I love competing, the challenge of pushing myself against the best in the world, and conquering the conditions on the day," says Kylie. And it's not just going fast on the water where Kylie has an impact on the sport. Off the water, Kylie has two automotive industry qualifications and brings those skills to a performance workshop where she spends her time designing and making hulls, and tuning performance watercraft for other racers and owners.

On race day, while other racers are quietly preparing to compete, Kylie is often working hard behind the scenes preparing the watercraft of other competitors and their teams, before joining them on the starting grid. Says

Kylie, "I've often been in a situation where I've helped prepare other watercraft that are lining up to race against me. And even though I always want to win, it's a special feeling if one of my customers or another team I helped prepare gets a win on the day. One of my proudest moments was seeing watercraft I worked on fill all top five places in a race."

What's on the horizon for Kylie? "After enduring months of on-again, off-again lockdowns and travel restrictions in 2021, I'm looking forward to joining the last round of the Aquabike World Championships in UAE in December, then kicking off 2022 with my favourite event, the Jet Ski World Cup in Thailand in January," said Kylie.

Whatever the future holds, it's certain Kylie will be getting there at top speed.

SEA-DOO PFD

Personal Flotation Device

Stay safe, look great and ride in comfort. Our selection of life jackets are made to be comfortable, lightweight and super reliable to maximize movement and protection no matter which situation you find yourself in.

PERSONAL FLOTATION DEVICE

PFD Size Chart

Lots of options, tons of safety. Whether you're getting wet and wild or heading out on a long, easy cruise, we've got the right PFD for you.

Weigh Yourself

Please use this size guide to measure Mens Life Jackets.

How to Measure

For best results, have someone else take measurements. Measure body in swimsuit or undergarments. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

Chest

Measure under your arms, around the fullest part of your chest.

Waist

Measure around your waist at the narrowest place.

Hips

Stand with legs together, measure around the fullest part of your hips, ensuring the tape is level.

Arm Length

Let your arms hang down on the side in a slightly bent position. Measure from the center of the back of your neck, along the length of your arm, to the wrist.

Inseam

Without shoes, from crotch to the floor.

Size up for the Perfect Ride

Sizes	Chest	Weight	Min. Buoyancy
XS	82cm	40kg - 60kg	45N
S	92cm	40kg - 60kg	45N
M	100cm	60kg - 70kg	53N
L	104cm	+ 70kg	60N
XL	112cm	+ 70kg	60N
2XL	118cm	+ 70kg	60N
3XL	124cm	+ 70kg	60N
4XL	130cm	+ 70kg	60N

*Note this size chart is only a guide

SURF LIFE SAVING AUSTRALIA

APPROVED SURF LIFE SAVING RESCUE WATERCRAFT.

Coastal Safety & Risk Manager for Surf Life Saving Australia, Anthony Bradstreet said, "We are particularly pleased with the performance of the range of BRP products including Sea-Doo personal watercrafts, Evinrude E-TEC outboard engines, Can-Am ATVs and SSVs. Across the categories, BRP has shown their commitment to providing quality products that are safe to use and environmentally sustainable."

BRP's exclusive technologies are at the heart of why Sea-Doo products deliver the most satisfying and secure experience on the water. The world's first and only intelligent Brake and Reverse (iBR) system together with the learning key that helps control the speed on beginners, offer outstanding maneuverability and safety handling. With ECO™ mode for fuel efficiency, impressive power, and cutting-edge features, and you've got a ride that puts exhilaration into your day and your mind at ease. These continuous innovations and the reputation on the water have made Sea-Doo the chosen brand for Surf Life Saving Australia.

Under demanding conditions, day in and day out, Sea-Doo watercraft deliver the performance and reliability required to help save lives on Australian beaches. And with ultra-low emissions throughout the line-up, our watercrafts are also helping keep Australian beaches and waterways clean.

OUR PLAYGROUND, OUR RESPONSIBILITY

Play it safe

Ensure everyone is wearing protective clothing.

Play it right

Observe and obey local rules.

Play it green

Respect local plant & animal wildlife.

SEA-DOO

Safety Checklist

PROTECTIVE CLOTHING

WEAR PROTECTIVE CLOTHING as well as a PERSONAL FLOTATION DEVICE (PFD). All riders must wear a certified PFD that is suitable for Personal Watercraft (PWC) / Boat use. Wet suit bottoms are often forgotten, and while they are not legally compulsory, they are a necessary addition.

ENGINE / THROTTLE MANAGEMENT

ATTACH ENGINE SHUT-OFF CORD (LANYARD) to PFD and keep it free from handlebars so that engine shuts off should you; the operator, fall off.

REMEMBER: YOU MUST APPLY THROTTLE TO TURN. After riding, remove the cord from PWC or Boat to avoid unauthorised use by children or others. When riding; DO NOT APPLY THROTTLE IF ANYONE IS AT THE REAR OF PWC – turn engine off or keep engine at idle. KEEP AWAY FROM INTAKE GRATE while engine is on.

SCAN CONSTANTLY & MAINTAIN A SAFE DISTANCE

SCAN CONSTANTLY for people, objects, and other watercraft. Be alert for conditions that limit your visibility or block your vision of others. Do not go near others to try spray or splash them with water. Do not ride erratically. Be prepared to stop or alter course in emergencies (Keep right when approaching other vessels).

KNOW YOUR BOATING LAWS

KNOW BOATING LAWS. If applicable by state; always ensure your PWC license is on you and follow navigation rules and provincial/state and local laws that apply to PWC / Boat. Know the waters you will operate in and observe all navigational marks and signs. Ignorance is not an excuse.

ALCOHOL / DRUGS

DO NOT USE ALCOHOL OR DRUGS before and during operation (both driver / passenger)

When riding for the first time, it's important you don't go out alone, get yourself familiar with your machine and surroundings by practicing in a controlled, safe environment, close enough so others can see you.
